

ICA Meeting on Regional Infrastructure Project Collaboration

15th February 2008

Luxembourg

Collaboration on regional projects is already happening and there is potential for much more further collaborative work on upstream and investment (e.g. co-financing, sharing pipelines, etc.)

Evidence is limited overlap.

ICA members provided a few projects in each of the four infrastructure sub sectors (Transport, ICT, Energy and Water) where collaboration is happening or foreseen in order to kick start discussions.

From the inputs received, here are examples of potential projects for enhanced collaboration under the following sectors :

Transport

completion of missing road links and bridges on the Trans-African-Highways

Energy

interconnection of regional networks and generation to address the energy crisis

ICT

creation completion of missing links in broadband infrastructure and of centres of excellence to meet Connect Africa Summit goals

Water

support for river and lake basins, and WSS projects to meet specific MDG targets

#	Project title	Geographical area / countries	Type of collaboration
1	Kinshasa-Brazzaville bridge	RDC, Congo Brazzaville	studies
2	Nigeria-Cameroon Highway transport facilitation program (Lagos-Mombasa Trans-African road corridor)	Nigeria, Cameroon	investment
3	Port of Pointe Noire	Central Africa (Bas Congo corridor)	studies and investment
4	Nacala Corridor	Mozambique, Malawi, Zambia	studies and investment
5	Lagos-Mombasa Trans-African road corridor the Bangui-Douala section, Garoua Boulai-Bouar road	Central Africa	investment
6	Trans-African Highway No. 5 (Dakar to N'Djamena)	West/Central Africa	studies and investment
7	Trans-African Highway No. 6 (N'Djamena to Djibouti)	Central/East Africa	studies

#	Project title	Geographical area / countries	Type of collaboration
1	Inga site development <i>Inga 1, 2</i>	Continental	investment
2	Inga site study	Continental	studies
3	OMVG interconnection program	Gambia, Guinea, Guinea Bissau, Senegal (OMVG)	investment
4	Temani combined cycle power plant + transmission lines	Mozambique (export to South Africa envisaged)	investment
5	Felou hydroelectric systems	Mali, Mauritania, Senegal, Guinea (OMVS)	investment
6	Ethiopia-Kenya interconnection	Ethiopia, Kenya	studies and investment

#	Project title	Geographical area / countries	Type of collaboration
1	East Africa Submarine System (EASSY)	East and Southern Africa	investment for terrestrial backhails
2	East Africa Community Broadband ICT network (EAC-BIN)	East Africa (15 countries)	studies and investment
3	Central Africa Community Broadband ICT network (CAB-BIN)	Central Africa (3 countries)	studies and investment
4	ICT centres of excellence	Tunisia and Rwanda	studies and investment

#	Project title	Geographical area / countries	Type of collaboration
1	Lake Victoria Water and Sanitation Initiative	Burundi, Kenya, Rwanda, Tanzania, Uganda	studies
2	Nile Basin Initiative	Egypt, Ethiopia, Sudan, Eritrea (obs.), Kenya, Rwanda, Tanzania, Uganda, DRC, Burundi.	studies and investment
3	Commission Internationale du Bassin du Congo-Oubangui-Sangha (CICOS)	Cameroon, Central African Republic, Republic of Congo, DRC	studies and investment
